Energy Star Appliance and SEER Cooling and Heating Rebate Application

Energy Star rated appliances that qualify for a rebate are: Dehumidifier, dishwasher, freezer, refrigerator, room air conditioner, washing machine, and dual fuel stoves/ranges. Appliance rebates will be 25% of the purchase price per appliance with a household maximum of \$5,000.00.

Rebates are available for central air, air source heat pumps, and earth coupled heat pumps. The central air and air source heat pumps **must** have a SEER rating of 14 or above to qualify for a rebate of \$75 per ton of cooling capacity.

For any new home that installs and uses a load management system dual fuel system for heating and cooling, additional rebates apply. The system must be adequate to back up 100% and feature automatic start-up to qualify for a rebate of \$150 per ton of cooling capacity.

Provide the following information along with this signed form in order to apply for the rebates.

1. Proof of disposal of old appliance
2. Proof of Energy Star rating – **Energy Star Label with Model #.**
3. Receipt of appliance (must show cost)
